

COSMIC

Caring for babies & children in intensive care

@QueenCharlottesHospital @StMary'sHospital

**Welcome to the Neonatal unit at Imperial College Healthcare NHS Trust
and many congratulations on the birth of your baby.**

Please accept this welcome bag as a gift from Cosmic, an independent charity that helps to improve care for premature and sick babies and children at Queen Charlotte's and Chelsea Hospital, Hammersmith and St Mary's Hospital, Paddington.

We hope the contents will be helpful to you and your baby, during your stay with us. Cosmic provide new equipment for the neonatal units, such as incubators, twin cots, and specialist cooling equipment, as well as funding research projects, with the aim of improving the outcomes for sick and premature babies. We also fund specialist training for our clinical teams working on the Neonatal Unit and wellbeing days to take care of our wonderful staff.

Cosmic Charity also fund the bedrooms and sitting rooms on both Winnicott Baby Unit and Queen Charlottes and Chelsea Hospital. This enables parents to stay with their babies, whilst they are being cared for on the neonatal unit, rather than travelling backwards and forwards to the hospital.

We hope you will have a comfortable stay here and if there is any way you feel that we could help you, please speak with a member of the neonatal team, or to us directly.

We rely entirely on voluntary donations to fund our work, improving care for almost 1000 premature and sick babies every year. If you would like to discuss making a donation to Cosmic, or would like further information about the charity, please do get in touch.

Please scan this QR code
to make a donation:

Every donation, no matter how small, really does make a difference.

Thank you.

The Cosmic Team
